Michael:

Attached please find my correspondence regarding the revised AOC, and the revised AOC in pdf. The changes we have been able to accommodate are set forth in the letter. I have not forwarded a copy of the Action Memorandum (which I believe you already have) or the Work Plan (which I need to get from the OSC). We have modified the SOW to conform to the changes we have made in the AOC, so that is attached. Also, I will forward by separate e-mail a copy of the Site map pdf. I will send out the hardcopy version on Monday, when hopefully, I will have the Asbestos Abatement Plan (Work Plan) also.
